Godzilla, the towering scourge of Tokyo, rises from the depths in the United States – and the Marvel Universe! For two glorious years in the 1970s, Japan's greatest export was one of Marvel's biggest stars – marching across America and battling some of the best and brightest the House of Ideas had to offer, including the Fantastic Four, the Avengers, the Champions, Nick Fury and the mechanized monster fighter, Red Ronin! Godzilla goes west, travels through time to battle Devil Dinosaur and hosts one of Spider-Man's most gratuitous guest-shots ever – but when Godzilla is shrunk down to miniature size, the terrible titan proves it can still be a tiny terror! Plus: Aliens, mutants, mad scientists and epic kaiju clashes with Godzilla's fellow towering titans – including Batragon and Yetrigar! Collecting GODZILLA (1977) #1-24.
